One of the most prestigious and selective Romanian publishing house Eminescu in the Library of Philosophy published in autumn 2009 its entire sapiantial works including all volumes of aphorisms published before and other volumes that have not seen the light to that date, in Romanian language. Romanian academician **Gheorghe Vladutescu**, University Professor, D.Phil., philosopher, one of the biggest romanian celebrity in the philosophy of culture and humanism believes about sapiential works of Sorin Cerin in Wisdom Collection:” *Sapiential literature has a history perhaps as old writing itself. Not only in the Middle Ancient, but in ancient Greece "wise men" were chosen as apoftegmatic (sententiar) constitute, easily memorable, to do, which is traditionally called the ancient Greeks, Paideia, education of the soul for one's training. And in Romanian culture is rich tradition. Mr. Sorin Cerin is part of it doing a remarkable work of all. Quotes - focuses his reflections of life and cultural experience and its overflow the shares of others. All those who will open this book of teaching, like any good book, it will reward them by participation in wisdom, good thought of reading them.*” This consideration about cerinian sapiential works appeared in: Literary Destiny from Canada pages 26 și 27,

One of the most representative romanian literary critic, **Ion**  
**Dodu Balan**, University Professor, D.Lit. considered that  
Sorin Cerin " Modern poet and prosiest, essays and  
philosophic study's author on daring and ambitious themes  
like immortality, ephemerid and eternity, on death, naught,  
life, faith, spleen. Sorin Cerin has lately approached similar  
fundamental themes, in the genre of aphorisms, in the  
volumes: Revelations December 21, 2012, and Immortality.  
Creations that, through the language of literary theory, are  
part of the sapient creation, containing aphorisms, proverbs,  
maxims etc. which „sont les echos de l’experience”, that  
makes you wonder how such a young author can have such  
a vast and varied life experience, transfigured with talent in  
hundreds of copies on genre of wisdom.As to fairly  
appreciate the sapient literature in this two volumes of  
Sorin Cerin, I find it necessary to specify, at all  
pedantically and tutoring, that the sapient creation aphorism  
is related if not perfectly synonymous, in certain cases to

the proverb, maxim, thinking, words with hidden meaning, as they are ... in the Romanian Language and Literature. Standing in front of such a creation, we owe it to establish some hues, to give the genre her place in history. The so-called sapient genre knows a long tradition in the universal literature, since Homer up to Marc Aurelius, Roche foucauld, Baltasar Gracian, Schopenhauer and many others, while in Romanian literature since the chroniclers of the XVII and XVIII century, to Anton Pann, C. Negruzzi, Eminescu, Iorga, Ibrăileanu, L. Blaga, and G. Călinescu up to C.V. Tudor in the present times. The great critic and literary historical, Eugen Lovinescu, once expressed his opinion and underlined “the sapient aphoristic character”, as one of the characteristics that creates the originality of Romanian literature, finding its explanation in the nature of the Romanian people, as lovers of peerless proverbs. Even if he has lived a time abroad, Sorin Cerin has carried, as he tells us through his aphorisms, his home country in his heart, as the illustrious poet Octavian Goga said, „wherever we go we are home because in the end all roads meet inside us”. In Sorin Cerin’s aphorisms, we discover his own experience of a fragile soul and a lucid mind, but also the Weltanschauung of his people, expressed through a concentrated and dense form. Philosophical, social, psychological and moral observations. Sorin Cerin is a “moralist” with a contemporary thinking and sensibility. Some of his aphorisms, which are concentrated just like energy in an atom, are real poems in one single verse. Many of his gnomic formulations are the expression of an ever-searching mind, of a penetrating, equilibrated way of thinking, based on the pertinent observation of the human being and of life, but also of rich bookish information. Thus, he dears to define immortality as “moment’s eternity” and admits to “destiny’s freedom to admit his own death facing

eternity”, “God’s moment of eternity which mirrors for eternity in Knowledge, thus becoming transient, thus Destiny which is the mirror imagine of immortality”. “Immortality is desolated only for those who do not love”, “immortality is the being’s play of light with Destiny, so both of them understand the importance of love”. Nevertheless, the gnostic, sapient literature is difficult to achieve, but Sorin Cerin has the resources to accomplish for the highest exigency. He has proved it in his ability to correlate The Absolute with Truth, Hope, Faith, Sin, Falsehood, Illusion, Vanity, Destiny, The Absurd, Happiness, etc. A good example of logic correlation of such notions and attributes of The Being and Existence, is offered by the Spleen aphorisms from the Revelations December 21, 2012 volume. Rich and varied in expression and content, the definitions, valued judgments on one of the most characteristics state of the Romanian soul, The Spleen, a notion hard to translate, as it is different from the Portuguese “saudade”, the Spanish “soledad”, the German “Sehnsucht”, the French “melancolie” and even the English “spleen”. Naturally, there is room for improving regarding this aspect, but what has been achieved until now is very good. Here are some examples which can be presumed to be „pars pro toto” for both of his books: „Through spleen we will always be slapped by the waves of Destiny which desire to separate immortality from the eternity of our tear”, „The spleen, is the one that throws aside an entire eternity for your eyes to be borne one day”, „The spleen is love’s freedom”, „The spleen is the fire that burns life as to prepare it for death”. (Fragments of the review published in the Literary Mirror (Oglinda Literara) no. 88, Napoca News March 26, 2009, Romanian North Star (Luceafarul Romanaesc), April 2009, and Literary Destinies (Destine Literare), Canada, April 2009)) Adrian Dinu Rachieru,

University Professor, D.Lit. states:"...we may , of course, mention worth quoting, even memorable wordings. For example, Life is the "epos of the soal", future is defined as " the father of death".Finally, after leaving "the world of dust", we are entering the virtual space, into the "eternity of the moment"(which was given to us)(Fragments of the review published in the Literary Mirror (Oglinda Literara) no.89 and the Romanian North Star (Luceafarul Romanesc), May 2009..Ion Pachia Tatomiurescu, University Professor, D.Lit states:"a volume of aphorisms, Revelations - December 21, 2012, mainly paradoxes, saving themselves through a “rainbow” of thirty six “theme colors“ – his own rainbow – as a flag dangling in the sky, in the sight of the Being ( taking into account Platon’s acceptance on the collocation, from Phaedrus, 248-b), or from Her glimpsing edge, for the author, at the same time poet, novelist and sophist, “the father of coaxialism”, lirosoph, as Vl. Streinu would have named him (during the period of researching Lucian Blaga’s works), knows how to exercise thereupon catharsis on the horizon arch of the metaphorical knowledge from the complementarily of the old, eternal Field of Truth " or of the sixth cover of the Revelation... volume, written by Sorin Cerin, we take notice of fundamental presentation signed by the poet and literary critic Al. Florin Țene: «Sorin Cerin’s reflection are thinkings, aphorisms or apothegms, ordered by theme and alphabetically, having philosophical essence, on which the writer leans on like on a balcony placed above the world to see the immediate, through the field glass turned to himself, and with the help of wisdom to discover the vocation of distance. This book’s author’s meditation embraces reflections that open the way towards the philosophy’s deeps, expressed through a précis and beautiful style, which is unseparated from perfection and the power of

interpreting the thought that he expresses. As a wise man once said, Philosophy exists where an object is neither a thing, nor an event, but an idea. ».The paradox condensing of Sorin Cerin's aphorisms in a "rainbow" of thirty six "theme colors" – as I said above – tried to give the "sacred date" of 21 December 2012: the absolute («Human's absolute is only his God»), the absurd («The absurd of the Creation is the World borne to die »), the truth («The Truth is the melted snow of Knowledge, from which the illusion of light will rise»), the recollection («The recollection is the tear of Destiny »), knowledge («Knowledge is limited to not have limits »), the word («The word is the fundament of the pace made by God with Himself, realizing it is the lack of nought: the spleen of nought»), destiny («Destiny is the trace left by God's thought in our soul's world »), vanity («Vanity revives only at the maternity of the dream of life »), Spleen («Within the spleen sits the entire essence of the world»), Supreme Divinity / God («God cannot be missing from the soul of the one who loves, as Love is God Itself »), existence («Existence feeds on death to give birth to life »), happiness («Happiness is the Fata Morgana of this world »), the being («The being and the non-being are the two ways known of God, from an infinite number of ways »), philosophy («Philosophy is the perfection of the beauty of the human spirit towards existence»), beauty («Beauty is the open gate towards the heaven's graces»), thought («The thought has given birth to the world »), giftedness («Giftedness is the flower which grows only when sprinkled with the water of perfection») / genius («The genius understands that the world's only beauty is love»), mistake («The mistake can never make a mistake»), chaos («Chaos is the meaning of the being towards the perfection of non-being»), illusion («The illusion is the essence of being oneself again in the nought»), infinity
